Services and Resources for Researchers

Postdoc Orientation – Jan 2017

How CTSI Can Help You

Funding, Training & Advancement

- Precision Health Science TL1 Postdoctoral Fellowship Training Program (PRESCIENT) – for early translational research
- Catalyst Awards & Catalyst Awards Internships
- Pilot Awards

Consultation Services

- Expert support in bioinformatics data analysis, biostatistics, data management and scientific writing
- First hour is free for each subject area!

Catalyst Awards Program

Funding + Industry Advice

- Funding and expert consultation to turn promising discoveries into products that improve health
- Links scientists to industry expertise
- Teaches product development and commercialization

****Faculty co-PI required on applications from Postdocs****

UCSF Profiles (profiles.ucsf.edu)

Like LinkedIn for Researchers

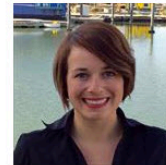

- 1) Add photo and bio
- 2) Link lab bio to Profile page and link back from profiles 'Websites' (improves your search rankings)
- 3) Use UCSF Profiles to learn about others' work, locate a mentor, or find expertise

Education and Training

Williams College	BA	2004
Johns Hopkins Bloomberg School of Public Health	PhD	Health Policy & Management 2013
University of California, San Francisco	Research Fellowship	Geriatrics

Overview

Krista Lyn Harrison, PhD is a health services researcher studying the impact of health care systems on quality of advanced illness care for aging adults and their families. She is currently a research fellow in the Division of Geriatrics at the University of California, San Francisco (UCSF). Dr. Harrison received her BA from Williams College and her PhD in Health Policy & Management with a concentration in Bioethics from the Johns Hopkins Bloomberg School of Public Health. From 2013-2015, Dr. Harrison served as Director of Research at Capital Caring, a community-based non-profit hospice and palliative care provider serving the Washington DC metropolitan area. In that role, she oversaw and conducted clinical trials, health services research, and program evaluation of education and quality improvement initiatives as well as the research training of physician fellows and other students. Additionally, Dr. Harrison was responsible for supervising evidence-based training for 700+ interdisciplinary employees and clinic ... [Show more](#) +

Interests

Geriatrics, hospice and palliative care, advanced illness care, community-based care, population health, health policy ethics, public health ethics, organizational values, disparities, advance care planning, implementation science, qualitative methods, and mixed-methods.
